

# aktaPD's Venture BHI Academy and Foundation Spotlighted in Magazine

**We are aktaPD.** This intentional misspelling of the Latin *acta* from the phrase *acta non verba* says it all: action, not words. aktaPD is proud of its commitment to be in action and help resolve all the problems in the industry we profoundly care about: the health and well-being of people, especially related to the products, devices, and techniques used in their care. That's why we birthed BHI Academy (BHIA). A school that is child-centric in its teaching methodologies, science-focused in its approach, and with a unique STEA+M curriculum (science, technology, English/languages, art, athleticism, math), BHIA is designed to prepare the next generation of dedicated scientists, gifted researchers, compassionate doctors, kind human beings, thoughtful critical thinkers, and good stewards of our environment. Check out the full story of this (ad!)venture co-founded by Sheree Vaickus, the Academy's Interim Head of School, and led by Board Chair, Dr. Lou Vaickus, in the attached **Haven Magazine**, by clicking [HERE](#).

**But wait:** Not only does beautiful Bald Head Island have a wonderful new school, it's also the perfect destination hot spot for your next conference, family vacation, or event. Come savor the pristine beaches and cool preservation vibe with the best of the best from industry, arts, science, medicine, government, and education.

**See you in Paradise!**
